University of Arkansas at Pine Bluff
Faculty/Staff Handbook

Policy: **COMPUTER USAGE POLICY**
Policy #: **7.16**

The Computer Usage Policy has been created to define what the University of Arkansas at Pine Bluff considers responsible and ethical behavior in using its computing facilities and resources and is applicable to all UAPB faculty, staff, students, and guests. This modern computer technology places a significant amount of power and information in the hands of its users. This power carries with it an equal amount of responsibility. Access to UAPB information, systems, and facilities must be consistent with the UAPB Technology Services Department.

Individuals who are granted computing accounts or use computing resources at the University of Arkansas at Pine Bluff accept responsibility with such access. Each user is expected to use accounts or resources within the University approved educational, research, or administrative purposes for which they are granted. Activities beyond these stated purposes are strictly prohibited.

A code of computing practices for the University is stated below. Violations of this code will be reviewed through established University judicial and administrative procedures. Actions to restrict computer usage may be challenged through the same procedures. For detailed information related information visit the [Technology Services website](#).
